QUALITY POLICY

1. INTRODUCTION

The following Quality Policy document is implemented in the PIAP Space's quality management system in accordance with the ISO 9001:2015 and is continuously reviewed and updated when needed during the Management Reviews.

2. QUALITY POLICY

PIAP Space provides high quality management, work organisation environment, systems engineering, design, development, manufacturing, assembly and tests in the scope of space technology and robotics for space industry through European Union and abroad. The company has developed its capabilities since establishment and aims to achieve flight level standards of its products and services.

It is the main directive of PIAP Space quality policy to provide to customer with goods and services to the agreed requirements with the technical conformance, schedule and price.

The Executive Board, directors, management and all employees are responsible to implement Quality Policy in accordance with Quality Manual seeking constant improvements, with special emphasis of client feedback. Suppliers and subcontractors are encouraged to co-operate in order to meet clients' expectations. The internal review of quality management system is a coherent element of those improvements. The maintaining of the necessary staff skills set is foreseen as important tool to ensure implementation of the quality policy.

In order to provide customer satisfaction and reliable flight products company will use quality procedures according the ISO 9001:2015 or those requested by client.
